

Giant Buzzer

The only professional unit in South Africa

Our giant 'Buzzer' game is ideal entertainment for all ages, at both indoor and outdoor events including Corporate & Promotional Events, Competition, & Team Building Events, as well as Family Fun Days.

The giant steel hand measures 30" high (770mm) and the aim of the game is, using the looped wand very carefully move around the hand from one side to the other, without touching the hand.

At the start of each game, the player has 3 lives which are displayed by the illuminated lights which are on the top of the base unit.

Whilst travelling around the hand, the player will also hear a 60 second heart beat timer which will progressively get faster.

Every time the handle touches the hand, the player will hear a warning sound and one of the red lights will go out.

Should the player touch the hand 3 times, then all 3 lights will go out, followed by a very distinctive failure sound, which signals that the game is over.

However, should the player manage to travel around the hand without using all 3 lives, then he/she will be greeted with a fanfare of trumpets.

BOOK TWO GIANT BUZZERS AND RACE AGAINST THE CLOCK TO SEE WHO WINS!
